

WELCOME TO THE BUC.

Slim & Husky's Pizza Beeria is Nashville's hottest pizza joint, but our name and our three founders go way back. The clever name came from a joke the longtime friends have been laughing about for years. One of them has always been a slim guy, but the other two were always big fellas, forcing their mothers to shop for clothing in the children's husky section.

Our aim is to bring a fun atmosphere to the neighborhood pizza scene. The tractor in our company logo represents our locally sourced ingredients and locally brewed beer. It also signifies the redevelopment of historic North Nashville, something our three founders take great pride in as Nashville natives. Slim & Husky's first location at 911 Buchanan St. was chosen as an effort to assist in the rebuilding of that special area. Welcome to the Buc!
